

# BLU-MIN®

## ZINC-POWDER WITH SULFUR

### GUARANTEED ANALYSIS

Sulfur (S).....17.5%  
Zinc (Zn).....35.5%

Derived from: Zinc Sulfate Monohydrate

Use in accordance with the recommendations of a qualified individual or institution or according to an approved nutrient management plan.

### Danger

#### Hazard Statements:

Very toxic to aquatic life, with long lasting effects.  
Risk of serious damage to eyes.  
Harmful if swallowed.

#### Precautionary Statements:

Keep away from heat/sparks/open flames/hot surfaces-No smoking  
Wear protective gloves/protective clothing/eye protection/face protection  
Wash hands thoroughly after handling  
Do not eat, drink or smoke when using this product  
Avoid release to the environment  
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.  
Collect spillage  
Dispose of contents/container in accordance with local/regional/national/international regulation.

#### First Aid:

**Eye Contact:** If irritation occurs, cautiously rinse eyes with lukewarm water for 15 minutes. Let the eye(s) water naturally for a few minutes. If irritation persists, obtain medical attention. DO NOT attempt to manually remove anything stuck to the eye.

**Skin Contact:** Remove contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Quickly and gently blot or brush away excess chemical. Wash gently and thoroughly with lukewarm gently flowing water and non-abrasive soap for 5 minutes. If irritation persists, repeat flushing. Obtain medical advice.

**Inhalation:** If symptoms are experienced, remove source of contamination or move victim to fresh air. Obtain medical advice.

**Ingestion:** Have victim rinse mouth thoroughly with water. DO NOT INDUCE VOMITING. Have victim drink 2 – 8 oz. (60 – 240 ml) of water. Zinc sulfate is an emetic and may cause vomiting. If vomiting occurs naturally, have victim rinse mouth with water again. Obtain medical advice and bring a copy of this SDS.

**Fire:** Zinc sulfate does not burn or support combustion. Use any means of extinction appropriate for the surrounding fire conditions such as water spray, carbon dioxide, dry chemical, or foam.
